About BISIT (Beshah International Solar & Information Technology)

BISIT (Beshah International Solar & Information Technology) is a private company established in February 2004 in Germany working on export, project development and consultation in the

area of renewable energy, specially solar energy and information technology, primarily towards Ethiopia.

MISSION

To promote the use of renewable energy in general and solar Energy in particular in a cost effective way in Ethiopia and Africa by offering innovative solutions for different applications, including Solar Home Stations (SHS) for lighting, solar water pumping, solar refrigeration, solar lighting for rural schools, etc.

VISION

By developing sustainable renewable energy projects BISIT has the vision to spread, above all, solar energy applications to enable rural development in Ethiopia and Africa thus improving the quality of life of the rural people.
